

Building Africa's AIDC, Automation & AI Workforce.

A strategic university partnership for the BTech in AIDC & Intelligent Automation.

WHAT WE ARE

Africa's AIDC + Automation + AI capability platform.

Auto DigitID Africa is a workforce-infrastructure platform: a Bachelor of Technology, a 3-tier professional certification ladder, faculty enablement, consulting, and an industry summit — built for African enterprise contexts and aligned to global standards.

128 BTECH CREDITS	Level 7 NQF ALIGNMENT	4 Years 8 SEMESTERS	3 Tiers CERT LADDER

THE DIFFERENTIATOR

We separate architecture from deployment.

 UNIVERSITY · THINK Architecture, systems thinking, AI strategy, integration concepts, governance, and ROI modelling.	 CERTIFICATION · DO Device configuration, RFID deployment, troubleshooting, MDM, workflow tooling, and integrations.
--	---

WHAT THE UNIVERSITY GETS

Three layers of value.

ACADEMIC • BTech mapped to NQF Level 7 • OBE-aligned learning outcomes • Industry-defended capstone • Africa-contextualised content	COMMERCIAL • Premium future-ready degree • Enrolment differentiation • Industry partnership pipeline • Stackable certification revenue	STRATEGIC • AI + automation positioning • Graduate employability • Regional thought leadership • Auto DigitID Summit access
---	--	---

LICENSING TIERS

Annual base + per enrolled student. 3-year renewable term.

TIER 1 · FOUNDATION \$4,500 + \$35/student <i>Year 1–2 + faculty resources</i>	TIER 2 · PROFESSIONAL \$12,000 + \$55/student <i>Full BTech + co-branding</i>	TIER 3 · STRATEGIC \$35,000 + \$75/student <i>Exclusivity + revenue share</i>
